

## Pardon the Dust and Noise!

The Billings Logan International Airport has started a remodel project on the B concourse to enhance the restroom facilities and to provide a new food and beverage concession, both upgraded conveniences for our customers. The restrooms will be significantly enhanced by doubling the number of available fixtures and moving to a private room concept. Additionally a new "family" restroom will be provided. The food and beverage concession will offer a varied food menu, coffee, soft drinks, micro brews, domestic beers, and wine.

We are excited to offer these new amenities to the passengers that use our east boarding gates! Construction is anticipated to be completed in the spring of 2017.

Final Layout for Enhanced Restrooms and New Food and Beverage Concession

Unified Entry to Enhanced Restrooms.

### Enhanced Restrooms

The Restroom enhancements will include a convenient unified entrance, twice the number of fixtures, a change to a private room concept, and also include a new "family" Restroom.

### New Food and Beverage Concession

An additional upgrade for our customers includes a new Food and Beverage Concession on the B Concourse. The facility will feature a new open walk-up concept and include convenient customer seating near the boarding gates, a varied food menu, coffee, soft drinks, microbrews, domestic beers and wine.
